Summary

At the end of my studies, I transitioned into a passionate DevOps and Fullstack Developer, pursuing my dream of creating seamless and efficient software solutions. With over a decade of experience working on various projects, I hold a diploma in IT and am currently completing my degree in Computer Science. Alongside my studies, I've been actively developing and deploying fullstack applications, leveraging modern frameworks, and participating in hackathons to enhance my skills

Education

Vishwakarma University, B-Tech in Computer Science Engineering   Sept 2023 – May 2026
- CGPA: 7.9/10.0
- **Coursework:** Data Structures & Algorithms, Computer Architecture, Operating Systems, Database Management Systems, Computer Networks, Machine Learning, Computational Theory.

Government Polytechnic Nagpur, Diploma in Information Technology   dec 2020 – May 2023
- CGPA: 8.3/10.0
- **Coursework:** Fundamentals of Programming, Computer Networks, Operating Systems, Database Management Systems, Web Development, Software Engineering, Data Structures, Computer Hardware Maintenance.

Experience

Web Development Intern, Sampurva Technologies – Nagpur   June 2022 – Aug 2022
- Developed and maintained responsive web applications using HTML, CSS, JavaScript, and backend technologies.
- Assisted in database management and API integration for seamless data flow.
- Optimized website performance and improved loading times by implementing efficient coding practices.

Projects

Quiz App   GitHub
- Developed an interactive quiz application using React.js with a dynamic user interface.
- Implemented four distinct sections, each containing a set of questions fetched from an API.
- Ensured seamless API integration for real-time question retrieval and improved user engagement.
- Tools Used: React.js, REST API.

GTA 5 Cheat Code Web App   GitHub
- Developed a GTA-themed web application using React.js to display cheat codes dynamically, delivering a bold and immersive user experience.
- Utilized GSAP to implement high-energy animations and transitions inspired by the aesthetics of GTA 5.
- Tools Used: React.js, Three.js, GSAP, REST API.

Technologies

Languages: English, Hindi, Marathi

Programming Languages: C++, C, Java,Python, SQL, JavaScript

Cloud and DevOps: AWS, Cloud Computing, DevOps, Docker, Kubernetes

Web and fullstack: React.js, Three.js, Node.js, MongoDB
